

# 10 PENCIL ART COURSES FOR A 9-12 YEAR-OLD

CERTIFICATED

Progressing from beginner to expert:

## 01. Basic Shapes and Lines

Introduction to drawing basic shapes (circles, squares, triangles) and lines (straight, curved). This helps develop fine motor skills and hand-eye coordination.

Learn simple shading techniques like hatching, cross-hatching, and blending to create depth and dimension. This step focuses on understanding light and shadow.

## 02. Shading Techniques

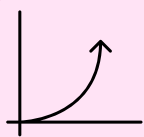

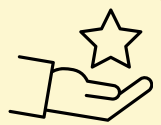

## 03. Drawing Simple Objects

Practice drawing everyday objects (fruits, toys, etc.) using basic shapes and shading techniques. This reinforces the ability to break down complex forms into simpler components.

Introduction to one-point and two-point perspective to create the illusion of depth. This step teaches the basics of spatial awareness and proportion.

## 04. Perspective Drawing

## 05. Sketching from Nature

Basic human anatomy, starting with stick figures and gradually adding more detail (proportions, posture, and simple clothing). This step helps in understanding the human form.

## 06. Human Figures

## 07. Facial Features

Focus on drawing realistic facial features (eyes, nose, mouth, ears) and understanding their placement on the face. This enhances portrait skills.

Drawing animals and pets, starting with basic shapes and adding details. This step encourages creativity and attention to detail.

## 08. Animals and Pets

## 09. Advanced Shading and Textures

Advanced techniques in shading and creating textures (fur, scales, wood, etc.) to make drawings more realistic. This develops a deeper understanding of materials and surfaces.

Creating a complete composition using all learned techniques. The final project could be a detailed scene or portrait, demonstrating the mastery of pencil art skills.

## 10. Composition and Final Project
